

ORDINANCE 2016-11

AN ORDINANCE AMENDING CITY SNOW ROUTES

WHEREAS, the City of Toledo has held a public hearing on the proposal that its snow routes be amended, and

WHEREAS, the City Council has determined that amending the snow routes in accordance with this ordinance is in the best interest of the people of Toledo, and

WHEREAS, the proposed ordinance has been reviewed by the City Council and meets with their satisfaction.

NOW, THEREFORE BE IT ORDAINED AS FOLLOWS:

The City of Toledo Code of Ordinances shall be amended as follows:

69.10 SNOW REMOVAL. The purpose of this section is to provide procedures for ordering the location of vehicles parked on City streets so as not to impede the progress of snow removal equipment endeavoring to clear the streets of snow and to provide for the tow-away of vehicles so stopped, standing or parked as to constitute safety hazards by impeding the passage of vehicles on the streets or the removal of unsafe accumulations of snow and ice.

1. Snow Routes. Stopping standing or parking or vehicles upon streets designated as snow routes, except as required at intersections or otherwise to avoid collision, is prohibited when the snow ordinance goes into effect until the snow removal operations have been completed for the entire width of the streets. For purposes of this section, the snow ordinance is in effect when the accumulation of snow exceeds one inch, as measured by the National Weather Service for the City, in any particular snowstorm or snow event. Vehicles found to be parked in violation of this section shall be cited for said violation, and to obviate the safety hazards occasioned by incomplete snow removal, shall be summarily towed on orders of a police officer to some place where the vehicle may be lawfully parked, or to a privately-owned impoundment lot. The cost of such towing shall be assessed to and paid by the operator or registered owner of the vehicle.

2. Snow Routes Designated. On the following streets or portions of streets designated in this section, it is unlawful, once official signs have been erected giving notice of such as "snow routes," to operate a motor vehicle contrary to this section.

- A. Broadway Street between State Street and Business Highway 30, except parking is permitted immediately in front of the Hotel Toledo on the West side of the Street;
- B. Church Street from High Street to Business Highway 30;
- C. Madison Street from Highway 63 to Elm Street;
- D. State Street from Highway 63 to East City Limits;

- E. Ross Street from Highway 63 to East City Limits;
- F. Elm Street from Ross Street to Vine Street;
- G. Vine Street from Elm Street to Church Street;
- H. High Street from Highway 63 to Ann Street;
- I. Main Street from State Street to High Street.
- J. Business Highway 30 from East City limits to West City Limits.

3. Temporary Tow-Away Zones for Snow Removal. After especially heavy snow accumulations, the Public Works Director may post other streets with snow removal/tow-away notice signs or place notices on the vehicles on such streets and cause the towing of vehicles parked contrary to such notice posted for more than twelve (12) hours when such is deemed necessary to enable City crews to clear out snow from areas that had numerous parked cars or which for some other reason could not be effectively cleared of snow by ordinary snow plowing operations, so as to obviate the occurrence or continuance of a special hazard caused by the said condition.

69.11 ALTERNATE PARKING. Alternate parking is in force in designated areas. The change in parking is effective at 9:00 a.m. each day.

Dated this 28th day of November, 2016.
